PROFESSIONAL SUMMARY:

Results-driven Mobile Application Developer with 6+ years of experience delivering cross-platform mobile applications using Flutter and Dart for Android and iOS. Strong background in ERP, POS, payment integration, responsive UI, REST APIs, Firebase, WebRTC, and enterprise application development. Experienced in Gulf client requirements, production deployment, QA coordination, code reviews, and performance optimization. Capable of delivering scalable, business-oriented mobile solutions for healthcare and enterprise environments.

WORK HISTORY:

Software Flutter Developer
MicroCenter Gulf, Bahrain | 01/2026 - Present | On-site

- Developed scalable Flutter applications for Android, iOS, and web in business and enterprise environments.
- Built backend services and RESTful APIs with Node.js, Express.js, MongoDB, and PostgreSQL to support production-grade applications
- Designed POS solutions with secure transaction handling and reliable frontend-backend integration.
- Optimized application performance, state management, and architecture for scalability and maintainability.
- Delivered responsive UI/UX improvements and real-time features for high-usage operational systems.
- Worked closely with cross-functional teams to deliver secure and efficient software solutions.

Flutter Developer (Freelance)

Pulse Hospitality, Hyderabad, India | 07/2025 - 01/2026 | On-site

- Developed and deployed scalable Flutter mobile applications for healthcare and workforce management domains. Built hospital management applications with appointment booking, patient records management, reporting dashboards, and real-time data handling.

Mobile Application Developer - Team Lead

SUVARNA TECHNOSOFT, Hyderabad, India | 11/2022 - 06/2025 | On-site
Experience: 2 years 8 months

- Led a team of 20 developers in designing, developing, and maintaining scalable Flutter mobile applications for healthcare, HRMS, and education domains.
- Developed end-to-end cross-platform mobile applications using Flutter and Dart for Android and iOS platforms.
- Integrated Firebase services including authentication, push notifications, real-time database, and analytics.
- Implemented Google Maps and live location tracking features for ambulance services, attendance systems, and workforce tracking.
- Integrated payment gateways including Razorpay, UPI, and card payment systems for secure online transactions.
- Developed REST API integrations, SMS gateways, and WhatsApp API integrations for appointment booking, notifications, billing alerts, and communication systems.
- Built production-grade modules including patient registration, appointment booking, health packages, payroll management, attendance tracking, exam management, and reporting systems.
- Implemented face recognition authentication systems and WebRTC-based video/audio calling functionalities.
- Published, deployed, and maintained Android and iOS applications on Google Play Store and Apple App Store.
- Conducted code reviews, mentored junior developers, managed task allocation, and ensured timely project delivery using Agile methodologies.
- Optimized application performance, scalability, security, and responsive UI/UX across multiple enterprise-level applications.

Associate Software Engineer

Vector Geospatial Services Pvt Ltd, Hyderabad, India | 06/2020 - 10/2022 | On-site
Experience: 2 years 5 months

- Worked on mobile application support, maintenance, and UI development for enterprise and client-based applications.
- Assisted in developing Flutter application modules, reusable UI components, and API integrations.
- Supported multi-vendor, reporting, educational, and workflow-based mobile applications.
